2017-18 Program Results

NON-PROFIT ENERGY EFFICIENCY TRANSITION (NEET) PROGRAM

This unique program provides funding to non-profit and volunteer-based organizations in Alberta to obtain energy audits and energy management plans. This helps non-profit organizations plan for energy efficiency improvements.

Total Budget ¹	\$1 Million
Total Funds Disbursed for Completing Energy Audits	\$253,000
Number of Audits	152

RESIDENTIAL AND COMMERCIAL SOLAR PROGRAM

This program provides incentives to homeowners, non-profits and commercial entities for the installation of solar photovoltaic (PV) systems. Solar installations will save money, make homes and workplaces more comfortable, create good jobs and help diversify Alberta's economy.

Total Program Cost ¹	\$4.1 Million
Total Installed Capacity	4.8 MW
Greenhouse Gas Reductions	95,000 tCO ₂ e*
Participating Contractors	289
Value of Generated Electricity from Solar Installations	\$11 Million

NUMBER OF INSTALLATIONS

Residential	484
Commercial or Non-Profit	27

Note: All savings are calculated over the life of the products installed.
